

PIN Pharma to Present a Poster at AACR International Conference on Translational Cancer Medicine

(New York, NY) May 5, 2017 – PIN Pharma, a pre-clinical immunotherapy company focused on modulating the immune system in oncology, today announced the Company will be presenting PIN-2: A Novel “Immunopriming” Polypeptide Initiates a Peripheral Systemic Innate and Adaptive Immune Response in an Aggressive 4T1 Murine Mammary Carcinoma Model in Sao Paulo, Brazil on Saturday, May 6, 2017 from 1:00 pm – 3:00 pm.

About PIN Pharma, Inc.

PIN Pharma is a pre-clinical stage venture backed immunotherapy company focused on the development of PINS (precision immune stimulants). The lead compound PIN-2 is a first-in-class, novel, next-generation engineered peptide that empowers the immune system *in vivo*. The Company’s technology primes the innate immune system to modulate adaptive immunity thereby generating and expanding antigen-specific cytotoxic T-cells *in vivo*. The company is advancing PIN-2 to the clinic early first quarter 2017.
